Permit #35
Baltimore, MD

The University of Maryland Liver Center is collaborating with Montgomery Gastroenterology to offer expert care for patients with any liver, bile duct, gallbladder, or pancreatic disease — eliminating the need to travel to Baltimore.

REFERRING PHYSICIAN PARTNERS can know their patients are in the hands of innovative physicians who are helping change the future of liver disease. The liver transplant team performs more transplants than any other hospital in Maryland, and includes an expanded team of surgeons specially trained to perform living donor liver transplants. The award-winning liver-directed therapies program provides patients access to innovative treatments and clinical trials for hepatobiliary cancers.

Surgical consultations are available for patients with:

- Liver cancers
- Bile duct injuries, strictures and cancer
- Gallbladder disease and tumors
- Liver cirrhosis, including liver failure
- Pancreatic diseases, cysts and tumors

12012 Viers Mill Road
Silver Spring, MD 20906

For liver transplant evaluation, please call the
Liver Transplant Program at **410-328-3444**.
